Changes to The BADGP Constitution

The BADGP Committee propose no changes to the Constitution.

Agenda Items

As enshrined in our Constitution, any member may request an item to be included on the Agenda for the AGM, as long as it is received at least 21 days in advance of the AGM (i.e. before 21st February 2019). Please send such requests to enquiries@badgp.org.

Cost

This event is free of charge to BADGP Members. To non-members it is only £70, which includes registration as a BADGP member until 31 December 2019. This therefore entitles you to attend the AGM section of this event. Refreshments and lunch are free of charge to BADGP members and included in the non-members' fee.

Registration

To register, please visit our online Event Management system at: <https://www.badgp.org/event-3120064>. The closing date for registrations is Friday 1st March 2019.

Apologies

If you can't attend and you'd like us to formally note your apologies, please email: enquiries@badgp.org. **If you have already registered and cannot now attend, please do email us, as we are paying a "per-head" fee to the hotel;**

Pre-Event Dinner

A number of BADGP members will be dining in the hotel the evening before the AGM at 8 pm. All delegates are warmly invited to join them (at own expense). If you haven't already notified us that you'd like to attend the dinner, please email us as soon as possible: enquiries@badgp.org.

Please Note

- Places are restricted in number and are available on a first-come, first-served basis, so early booking is advisable if you wish to guarantee a place.
- Your attention is drawn to the following conditions:
 - For non-members, the full fee is payable on receipt of our invoice which needs to be paid in advance of the event.
 - Cancellation of a booking is not possible for any reason, but substitutions will be permitted; at the applicable rate.
 - BADGP reserves the right to alter or cancel the programme due to circumstances beyond our control. If BADGP cancels, then refunds will be made (if applicable).

Exhibitors / Sponsors

BADGP is indebted to its sponsors, whose support enables us to put on top-quality events such as this industry seminar. They are:

	<p>Dura-ID Solutions</p> <p>Dura-ID Solutions offering extends beyond labels, they can also provide printing solutions and software. At the BADGP 2019 AGM and Annual Industry Seminar Dura-ID will be showcasing a popular printing solution from OKI.</p> <p>Our labelling experts are there to discuss a wide variety of identification options to suit your application. We can provide full colour printing solution from Neuralabel or OKI that allows you to eliminate the need for pre-printed stock, meaning you can print the labels you require in-house at your convenience. We can also supply thermal transfer printers from Zebra or CAB.</p> <p>Dura-ID also supply and manufacture a variety of media to complement their range of printing solutions. From A4 sheets of labels to rolls of tags – as a manufacturer we can provide you with whatever you need to your exact specifications.</p> <p>T: +44 (0)114 242 2111 chemicals@dura-id.com www.dura-id.com</p>
	<p>Air Sea Containers</p> <p>For over 35 years, Air Sea Containers Ltd have specialised in the manufacture and supply of UN approved packaging for the transport of dangerous goods. Alongside our extensive packaging range, our highly knowledgeable team offer expert advice and guidance on all aspects of dangerous goods.</p> <p>We offer complete solutions to everyday dangerous goods queries including:</p> <ul style="list-style-type: none">• Free guidance and expert consultation• Bespoke product development• UN packaging approval and testing• DGSA (Dangerous Goods Safety Advisor) services• Dangerous goods training <p>T: +44 (0)151 653 1500 www.airseadg.com</p>

Chemical Hazards Communication Society (CHCS)

CHCS aims to provide information and training guidance to as many individuals as possible, regardless of whether they work in small or large companies, for associations or for government, involved with the ever-increasing complexity of chemical hazards regulations and international codes.

Exis Technologies

Exis is the leading global supplier of IT compliance systems for the management of DG in sea transport and e-learning courses for the transport industry. We have 30 years' experience of supporting container lines (9 of the top 10), ferry lines, shippers, freight forwarders, ports and terminals. We are the software division of the National Cargo Bureau, New York www.natcargo.org. Together our 'not for profit' mission is the Safety of Life and Cargo at Sea.

Hazcheck Systems help customers in the sea transport chain to ship DG quickly and efficiently, automatically checking stowage, segregation and packaging requirements (without the need for the IMDG Code books).

Hazcheck DGL Life is a free mobile app for those that need quick and easy access to the IMDG Code information contained in the Dangerous Goods List. www.hazcheck.com

Hazcheck Restrictions is a DG compliance portal for the global shipping community.

Hazcheck Inspections is a web portal/database developed with NCB to record container inspection results. In 2012, Exis developed a hazardous goods incidents database, CINSnet, with several of the top 20 lines.

IMDG Code e-learning Amendment 39-18 is an online training solution, developed in collaboration with IMO. Includes multimodal general awareness, job-related function specific, advanced and refresher training, and

	<p>a course completion certificate. www.imdge-learning.com</p> <p>CTUpack e-learning is a range of courses for the safe handling and packing of CTUs. www.ctupack.com</p> <p>Tank Container e-learning offers guidance on the safe operation of tank containers www.tankcontainer-elearning.com</p> <p>T: +44 (0)1325 466672 Sales@existec.com www.existec.com www.twitter.com/hazcheck</p>
	<p>National Chemical Emergency Centre (NCEC) The World's Leading 24/7 Chemical Emergency Response Centre - NCEC delivers 24-hour emergency response and fast, up-to-the-minute advice and products setting global standards on emergency response and compliance.</p> <p>Established in 1973, the National Chemical Emergency Centre (NCEC) was set up by the UK Government to provide emergency response support to incidents involving hazardous chemicals.</p> <p>Over the past 40 years we have developed an in-depth knowledge of the global chemical marketplace and its critical interactions with stakeholders – from regulator to supply chain. Our knowledge and expertise places us in a unique position to understand and support our customers manage chemical and wider business risk – from emergency response to supply and transport regulations.</p> <p>We have a global understanding of issues relating to chemical safety and legislation, built through many years of horizon scanning and response to policy. Our regulatory insight and strong international networks inform our global regulatory knowledge base.</p> <p>Today, we not only specialise in chemical emergency response and related chemical supply and transport regulations but also have a broad range of crisis and business continuity services to help our customers deal with all types of incidents.</p>

	<p>At a glance, NCEC provides:</p> <ul style="list-style-type: none">• Expert telephone emergency response• Advanced language and call handling capability• A global service, with a local presence• Resilience of service• A safe pair of hands <p>T: +44 (0) 1235 753654 the-ncec.com www.twitter.com/ncec_uk www.linkedin.com/company/ncec</p>
 	<p>Ambipar Response Ltd. Hazmat Response: Rapid response to incidents involving Dangerous Goods. Ambipar teams are on permanent standby in our strategically located bases nationwide, enabling us to respond to incidents almost anywhere in the United Kingdom within three hours. We can also respond further afield having dealt with incidents in Germany and Italy in the past 12 months</p> <p>Once deployed, our highly trained response teams mobilise quickly to any situation, whether it happens at a crucial point in the transport infrastructure, at a company site or at sea. When on site, our teams coordinate the response and maintain full contact with the customer. They also work to ensure that they deal with hazards swiftly and efficiently to reduce the impact to environmental and socioeconomic resources.</p> <p>www.ambipar-response.com/response</p>

**Leading UK
Logistics**

Freight Transport Association

FTA are one of the biggest business groups in the UK, supporting, shaping and standing up for efficient logistics. We are the only organisation in the UK that represents all of logistics, with members from the road, rail, sea and air industries, as well as the buyers of freight services such as retailers and manufacturers whose businesses depend on the efficient movement of goods. As champions and challengers, FTA speaks to Government with one voice on behalf of the whole sector, greatly increasing the impact of our messages and achieving amazing results for Members.

Jacqui Hillhouse, Training Product Development Manager, FTA

Road Haulage Association

The Road Haulage Association is the UK's only trade association dedicated to representing the interests of road transport operators who cover the entire spectrum of haulage operations. The RHA has over 7,000 members who between them, operate over 250,000 HGVs. The Association works tirelessly to promote the industry and the work of its members in many ways through active campaigning and Government lobbying. Members benefit from a wide range of services including: helpdesk and local area manager support; updates on regulatory changes delivered via regular area briefings and national events; and 'industry standard' Conditions of Carriage. The RHA also offers legal services, training, audit and compliance, rescue and recovery and tachograph analysis software services and covers the entire spectrum of social media.

HCB Cargo Media Ltd

HCB is the number-one voice on all issues concerning the transport and handling of dangerous goods; spanning the leading monthly print publication, online and multi-media video channels. Established in 1980 to help industry professionals keep up to date with changing regulations, we continue to cover regulatory developments and bring our audience breaking news and the latest information on products and services that aim to make their operations safer or more efficient.

HCB covers the transport and handling of all kinds of dangerous goods, but particularly liquid chemicals, liquefied gases, explosives and radioactive materials. It covers transport by all modes: road, rail, maritime (bulk and packaged), inland waterway and air. Its coverage is also global in scope, covering not only the UK, Europe and North America but also the Far East, South-East Asia, Australasia, the Middle East, Africa and Latin America.

HCB is offering BADGP members free exclusive access to all of our digital content. The deal is part of a subscription which is usually worth £249.95.
