

British Association of Dangerous Goods Professionals

BADGP supports professional people working in any capacity with Dangerous Goods in whatever mode of transport and whichever class or classes they are involved with.

The purpose of BADGP is to promote the safe transport of materials that present risk, by supporting the professionals who work in the business of Dangerous Goods.

'Supporting people who work with dangerous goods.'

We are a growing, non-profit, Great Britain based membership association but are also very pleased to welcome members from overseas. As of the beginning of 2016, as well as those throughout Great Britain, we have members based in Cyprus, Ireland, Israel and Portugal.

Our members work in an extremely diverse array of companies in many different sectors of industry, but all with a professional interest in the transport of dangerous goods and a keen desire to keep up to date with legislation and best practice and be part of the professional community that BADGP exists to provide.

Our members work, for shippers, road hauliers, freight forwarders, chemical manufacturers, logistic companies, ferry operators, shipping lines, trade associations, providers of printed and digital legislation and International Agreements, label and documentation suppliers, software systems and individual consultants.
