PacTec EPS Ltd

PacTec EPS Ltd, a UK company design and manufacture flexible containment packaging solutions primarily for radioactive Low Level Wastes (LLW). This includes package Type's IP-1, Type 1P-2 and Type IP-3 containment packages. All PacTec packaging is tested and certified compliant with IAEA SSR-6 regulatory transport regulations. The underpinning substantiation is provided by a suite of Package Design Safety Report (PDSR) documentation, i.e. Certificate of Approval, Design Safety Report etc.

Our innovative flexible packaging solutions are utilized across the UK NDA nuclear sites plus many others and worldwide, providing a more cost-effective packaging solution together with cost reductions for transport and final disposal due to the improved packaging efficiencies, together with improved handling, and logistics.

In addition to our 'standard' LLW containment packages, we also provide a dual certified containment package as Type IP-1 and UN PGY, providing a unique package that ensures compliance with the transport requirements for hazardous wastes under PG2 and Class 7 LLW, e.g. LLW contaminated asbestos or NORM wastes.

topspeed
trusted by professionals

Topspeed

Topspeed provide specialist same-day and secure overnight courier services for the carriage of Dangerous Goods and other material subject to regulatory control.

To ensure the chain of custody and provide the highest levels of security over Radioactive Material, biomedical samples, High Consequence Dangerous Goods and Controlled Substances the company manages its fleet of over 140 company owned Mercedes Benz using a comprehensive real-time tracking and telematics platform.

All drivers are employed directly by Topspeed, they are security checked and provided with uniforms. Training including ADR, is provided within the Topspeed Academy in our Cheshire Operations Hub by our dedicated training and compliance officer.

The fleet vehicles are located across England, Scotland and Wales, they are all company owned and maintained by our in-house workshop and employed mechanic team.

For more information about Topspeed contact CEO Stephen Clegg or Managing Director Gillian Lockley.

Hazmat Logistics

Hazmat Logistics Ltd is a specialist logistics company with offices near Heathrow, London and Edinburgh, Scotland. We have been operating for over fifteen years and have more than 100 years combined experience in transporting radioactive material and other classes of dangerous goods to worldwide destinations.

Hazmat Logistics Ltd offers a safe, efficient, and fully compliant service for the transport of Class 7 Radioactive Material and all other Classes of Dangerous Goods. Our technical expertise provides quality and value that cannot be challenged by our competitors. We provide a worldwide logistics service using our specialist knowledge of flight sectors, operator capabilities and airline handling procedures and rules. Our ADR drivers are certified for all Classes of DG, and operate within the UK, Ireland and Europe.

Hazmat Logistics Ltd has staff that are fully trained and experienced in transporting and handling all types of radioactive materials. We have two DGSA's with Class 7 experience available, who understand customer needs, the processes and the problems that can arise and are qualified to provide a wide range of advice. We can facilitate movements of all types of radioactive packages to meet our customers' requirements.

Hazmat is fully licenced as appropriate, to transport radioactive material in several countries in addition to the UK.

Our Management System is accredited to the international standards ISO 9001:2015 and ISO 14001:2015. We are a Regulated Agent for SPX (Known) Cargo, with ADR, IATA, IMDG certified staff. We can supply a range of excepted, Type A, Industrial packaging, and UN packaging.

We are an Affiliate Member of the Society for Radiological Protection.

Nuclear Transport Solutions is part of the UK's Nuclear Decommissioning Authority (NDA), a public body responsible for ensuring the safe and efficient clean-up of the UK's nuclear legacy.

We are specialists in the operational, commercial, engineering, legal and regulatory expertise that underpin nuclear transport and logistics operations.

We operate Direct Rail Services (DRS) and Pacific Nuclear Transport Limited (PNTL) who have decades of experience of providing safe, secure and reliable transport solutions.

We use our world-leading expertise to deliver commercial activities for a range of customers in the UK and overseas. For example, our unique high security shipping capabilities support UK and global security goals, with the aim of making the world a safer place.

NTS also works for customers outside the nuclear sector. For example, we operate a number of intermodal rail freight services in consumer goods and general freight markets. Undertaking this work ensures our capabilities and assets are maintained and enhanced, and generates additional revenue to support the NDA's mission.
