Labeline

For nearly 30 years Labeline International has been at the forefront of dangerous goods (DG) compliance, supplying publications, labels, placards, documentation, software, packaging, consultancy, and training (both online and in classroom).

Globally, Labeline is probably the leading authorised distributor for the regulations covering the transport of dangerous goods by all modes (ADR, IMDG, IATA/ICAO, RID). For 12 years the company has been IATA's leading distributor of their Dangerous Goods Regulations worldwide. Every two years Labeline hosts a regulatory update seminar – the next one will be around this time next year and will focus will be on the regulatory changes for the transport of DG from 2023. The company also publishes the Guide to Exemptions from CDG, it is the ideal reference book to help consignors and shippers determine if their consignments fall within the scope of ADR.

Labeline is your one-stop Dangerous Goods service provider. For more information, please contact the Customer Services Team:

cordstrap

Keeping the world's cargo safe

Cordstrap

Since 1965, Cordstrap has remained the world leader at the forefront of a revolution in the protection of cargo. Our mission is to keep the world's cargo safe – by offering solutions that ensure our customers' precious assets are secured for any transport mode.

With three international manufacturing locations and operations in over 50 countries worldwide, Cordstrap combines a powerful product suite with a collaborative approach and the best quality assessments, solution design, loading plans, training, and auditing. Cordstrap's solutions are compliant with all international and national regulatory frameworks.

They are specifically designed for securing any type of cargo including Dangerous Goods for example packed in Drums, IBCs and Bags on pallets and are recognized by all industries around the world for providing safety and environment protection across the supply chain as well as for time and cost reduction. Cordstrap are the only supplier of cargo securing and moisture control solutions with CTU Code Compliance Certification from Lloyd's and MariTerm. Giving manufacturers and logistics providers the assurance that their loads will be approved by surveyors globally.

At the BADGP AGM, Cordstrap will be presenting the latest developments in the field of cargo securing and explain the importance of securing Dangerous Goods according to the relevant codes. The members will have the chance to discuss, share experience and be in contact with our cargo securing experts in the UK who will be available for supporting their operations and their customers with the peace of mind provided by application expertise, legislative insights and implementation support at a local level.
