Labeline

For over 30 years Labeline International has been at the forefront of dangerous goods compliance, supplying publications, labels, placards, documentation, software, packaging, consultancy, and training (both online and in classroom).

Globally, Labeline is the leading authorised distributor for the regulations covering the transport of dangerous goods by all modes (ADR, IMDG, IATA/ICAO, RID). For 14 years the company has been IATA's top distributor of their Dangerous Goods Regulations worldwide.

Labeline is delighted to have been a keen supporter and sponsor of BADGP since its inception. We have attended every major event that the association has hosted and offer discounts on certain products to BADGP members. Labeline also publishes the Guide to Exemptions from CDG, it is the ideal reference book to help consignors and shippers determine if their consignments fall within the scope of ADR and maximise the benefits of the LQ/EQ exemptions.

Labeline is your one-stop Dangerous Goods service provider. For more information, please contact the Customer Services Team:

Cordstrap – The Passion to Protect

Cordstrap has always believed there is a better way. That's why, for over 55 years, we have been dedicated to making the movement of goods safer. We continue to achieve this through a consultative, Protection Engineering approach which is designed to engineer out risk associated with goods that are on the move, enabling businesses to operate with confidence and thrive.

Cordstrap's cargo protection engineers have extensive application expertise in numerous industrial settings, enabling them to diagnose problems, identify opportunities, and develop creative solutions based on best practices, in line with local and global regulations. With this expertise, combined with our innovative and evolving portfolio of solutions, we protect products on the move, the people handling them, and the industrial environments they pass through.

It is our passion to protect that drives us and makes us the global leader in the safe movement of goods.

**Dolav**

Dolav are a leading global provider of superior handling and storage solutions specialising in manufacturing large volume HDPE pallet boxes for waste recycling, meat processing, agricultural, logistics and warehousing markets.

AkkuGrain - The solution for legal and safe Lithium Battery ion storage and transportation

Operating out of 8 countries, with their UK operation in Norfolk, Dolav have developed AkkuGrain, a patented solution to help store and transport Lithium-ion batteries legally and safely in UN certified Dolav containers. When heat is released from Lithium-ion battery thermal discharge, the components of AkkuGrain bind toxic and flammable gases. At the same time, the source of the fire is cooled down so that the fire cannot spread further inside or outside the Dolav.

In addition, the oxygen is displaced from the charge carrier, suffocating the fire.

AkkuGrain is officially certified and patented as a non-combustible material and is the first protective agent, specially designed for the safe and legal transportation and storage of Lithium ion Batteries. Made from purely organic components, AkkuGrain, only reacts in the event of Thermal Discharge
