

Webinar

Transporting Gases Safely

Tuesday 4th July 2023, 13:00 – 14:30

This webinar will cover all aspects of transporting gases. In particular, it will help attendees to gain an understanding of the typical checks that should be carried out to ensure your gas container is safe for transport and meets the necessary legal requirements.

This webinar will be beneficial to anyone who transports gases and in particular those with DGSA responsibilities. The webinar will also address the following questions:

- What makes a cylinder safe to transport?
- How is a gas cylinder identified?
- What are the 'pi' and 'rho' marks, and how are they used on transportable pressure equipment?
- How should your vehicle be identified?
- How should you stow cylinders on a vehicle?
- What are the rules for small load exemptions, in accordance with ADR 1.1.3.6?

Our Presenter

We are delighted to have as our presenter:

Peter (Jake) Lake
Technical Manager, British Compressed Gases Association
(BCGA) www.bcgga.co.uk

The BCGA are the lead Trade Association for industrial, medical and food gases and provide safety information and technical standards for both members and users of these gases. BCGA has existed since 1901 and has over 100 members.

BCGA members employ a minimum of 19,000 people directly and account for an annual turnover of greater than £2.7 bn. In representing the industry, BCGA works closely with its members, industry and the Regulators.

[@badgp_dgsa](https://twitter.com/badgp_dgsa)

Jake has been the Technical Manager at the BCGA since 2011. Jake has been in engineering all his working life, initially with service in the Royal Navy as an aircraft engineer, with increasing responsibilities for the operation of naval aircraft from HM Ships, until completing as a Desk officer providing technical guidance in support of naval aviation. From 2002 he worked for the Ministry of Defence as the Gases Regulator providing the MoD lead for the safe use of gases, gaseous policy and standards as well as representing the UK at NATO. As well as managing the many topics covered by BCGA, Jake Chairs and is an active member of several BSI, CEN and ISO standards committees. Jake is a Member of the IMechE, the IET, the Energy Institute and BADGP.

Registration & Costs

Attendance at the webinar is free to BADGP members.

Members of [CHCS](#) can also register free-of-charge (please see link).

To register for the webinar please complete the online form at <https://www.badgp.org/event-5298570>.

After registering we will send you an email explaining how to join and run the webinar.

Please feel free to forward this flier to any other person who you think may be interested in joining the webinar.

Non-members can [Join BADGP](#), (membership is just £80.00 for 1 year).

Questions? Please contact: enquiries@badgp.org
